PAPERS

Acquisition of a word. Margaret Bullova, Lawrence G. Jones and Audrey R. Duckert	107
Consciousness of linguistic contact : empirical findings and a critique. Leonard W. Doob	226
Cross cultural study of speech rate. Harry Osser and Frederick Peng	120
Factor analysis of consonant articulations of children. Richard E. Schutz, Donald Mowrer and Robert L. Baker	16
Factor analysis of semantic differential ratings across scales. Richard E. Schutz	160
Frequency importance function for isolated words and for conversation of female talkers. Irwin Pollack	71
Further study of grammatical class as a variable in verbal satiation. Samuel Fillenbaum	233
Gating techniques as an aid in speech analysis. J. 't Hart and A. Cohen	22
Interaction between auditory and visual information sources in word identification. Irwin Pollack	76
Interaction of two sources of verbal context in word identification. Irwin Pollack	1
Linguistic study of the written compositions of ten-year old children. Olive C. Sampson	176
Lip positions in American English vowels. Victoria Fromkin	215
Model for continuous language behaviour. John Morton	40
New approach to semantic generalisation. J. Butler	112
Oral responses of aphasics under different syntactical conditions. Walter Jerome Rollin	167
Probabilistic pairs and groups of words in a text. A. R. Meetham	98
Social class language differences in group discussions. Denis Lawton	183
Some further experiments in the perception of resonant consonants. Dean H. Obrecht and William R. Babcock	238
Some possibilities in speech synthesis. Peter Ladefoged	205
Spectra analysis of fluctuations in sound energy in certain insects and humans. Roland Fischer and S. J. M. England	243
Speech synthesis by rule. J. N. Holmes, Ignatius G. Mattingly and J. N. Shearme	127
Transitions in fricative noise. Elizabeth Uldall	13
Typing errors as clues to serial ordering mechanisms in language behaviour. Peter F. MacNeilage	144
Voice quality changes in depression. William A. Hargreaves and John A. Starkweather	84
Vowel duration in whispered and in normal speech. Donald J. Sharf	89
